

# GREMLIN<sup>®</sup>

Once you download your GREMLIN<sup>®</sup>Tank Monitor App,  
you'll put your fuel supply at your fingertips.

You can check:  Current fuel level  Approximate next delivery date  Gallons you've been burning

With the tap of an icon, you can call or email us, or access your account on our website, directly from the app.  
Just follow the instructions below, and enjoy a whole new level of confidence.

Fuel account number: \_\_\_\_\_ Your tank monitor ID #: \_\_\_\_\_

## Step 1:

Search "GREMLIN<sup>®</sup>Tank Monitor"  
in App store.

Tap 'GET' next to GREMLIN<sup>®</sup> Tank  
Monitor to download.

**Do not download the GREMLIN<sup>®</sup>  
Dealer App. That is for use by the  
technicians.**

Note: Allow Push Notifications so if  
we are not receiving readings in our  
office, or detect any other issues, we  
can alert you.

## Step 2:

Register your tank monitor ID#.

Click the box "Are you a new user?"

Enter your desired username and password  
(there are no restrictions), your email  
address, your fuel account number, and  
your tank monitor ID#. You may find your  
fuel account number and tank monitor ID#  
at the top of this sheet. If not, then the tank  
monitor ID# is located under the barcode on  
the sticker attached to the monitor. If there  
are multiple zero's at the start of the serial  
number, please enter ONLY numbers that  
follow the 0's.

Tap register to proceed, and you are all set!

**\*\*Please note: If for some reason a reset of this app  
needs to be completed, the original username will not  
be available to re-use. In all cases of a reset, the user  
will need to create a new username that has not been  
used previously.**

## Step 3:

You're now ready to use the  
app!

Each time you use your app,  
you will be asked to enter  
your username and password.  
If you choose "Remember  
Me" then next time you'll just  
need to click "Log In".
